Public Works Director Cosby explained that several of the items that were included in the Cost Allocation Plan for water in the current fiscal year were going to be directly charged to water next year.

The water Cost Allocation Plan was discussed.

Council also discussed the Town's current bonds and their terms.

Mayor Tarr suggested that the loan made from the general fund to water for the repairs to the water tank be paid back in four years at \$60,000.00 rather than two years at

\$120,000.00. He further suggested that the other \$60,000.00 be used on the Church Street waterline replacement project. Council agreed.

Harbor Fund

1. Call to Order.

Mayor Tarr called the Recessed Special Meeting to order for the purpose of a workshop on the draft Fiscal Year '08 budget at 4:30 p.m.

2. Invocation.

Councilman Howard offered the Invocation.

3. Pledge of Allegiance.

4. Fiscal Year '08 Draft Budget.

General Government Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for General Government.

Mayor Tarr asked that the Town consider in the future paying the employees share of retirement. He feels that with many of our surrounding localities offering this benefit it will keep the Town competitive in the employment market.

Public Works Administration Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for Public Works Administration.

Salaries and benefits for Public Works Administration have been spread out through all the divisions of Public Works, Water, and Mosquito Control.

Public Works Facilities Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for Public Works Facilities.

Council discussed the sanitation services contract and the possibility of the Town taking over this function upon completion of the current contract. Council also discussed a solid waste collection fee. Council also discussed the current playground equipment at Memorial Park and the need for its replacement. Council felt that some money should be placed in this line item to begin the replacement and to seek grant funding for a portion. Chief Lewis stated that the Police Department would be willing to donate \$20,000 from their fundraising to the playground equipment.

Public Works Roads Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for Public Works Roads Division. The Roads Division balances to the VDOT Maintenance Funds in revenue.

Police Department Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for the Police Department.

Emergency Dispatch Expenditures

Council reviewed and discussed the proposed salaries, benefits, and expenses for Emergency Dispatch.

General Fund Revenues

Council discussed increases in real estate assessments. Although part of the Sunset Bay project will be included in the 2007 real estate tax assessment as "in construction", neither unit had gone to settlement as of January 1, 2007.

Council discussed the Personal Property Tax Relief amount for FY'08.

Council discussed the collection of Meals Tax and the fewer restaurants on the Island.

Council discussed increasing the motor vehicle license rate from \$23.00 to \$27.00 as reflected in the proposed budget.

It was explained that as of January 1, 2007, the state collects a telecommunications tax which includes 911 taxes. The state establishes the rate and collects the money. They take off administrative fees and forward a percentage of the revenues to the Town. The tax rates established by the state were less than the rates the Town levied. The state will also collect all franchise fees for telecommunications and cable television.

Council discussed the DMV Agency compensation line item. Although all our citizens like the convenience of having a DMV office here, the staff has been so overloaded with DMV work that their Town work is suffering. DMV has notified the Town that beginning July 1, 2007 the percentage of compensation will increase by .5% however the Town will be responsible for all equipment, printers, telephone lines, etc.

After the first review, the general fund had approximately \$176,000 more in expenditures than revenue.

Council then discussed possibilities for additional revenue.

Transient Occupancy Tax

Council was presented with figures if Transient Occupancy Tax was increased by .5% and 1%. This could potentially increase revenues \$66,000 to \$175,000. Council also discussed the percentage to the Chincoteague Recreation & Convention Center Authority and their request for increased funding.

Business License

Council was presented with figure if the minimum and maximum business license was increased. This could potentially increase revenues by \$20,000 to \$25,000.

Solid Waste Fee

Council discussed a weekly solid waste fee imposed on all homes and business on the Island.

Real Estate Tax

Council was presented and discussed figures if the real estate tax rate was increased. A \$0.03 per \$100 of assessed value could potentially increase revenues by \$144,000.

• It was the consensus of Council to propose in the FY'08 draft budget a 1% increase in transient occupancy tax with 17% allocation to the Authority and a one time donation of \$10,000, and a \$1.00 per week solid waste collection fee.

10. Briefing on the Retrofitting of Anchors onto Fuel and Gas Tanks.

Town Planner Anderson briefed the Council on the research he completed to provide background information for the Safety and Transportation Committee's discussion regarding anchoring fuel tanks. Many fuel tanks on the Island are not anchored to foundations or structures. These can break free during high winds or flooding. Floating or tumbling tanks are potential fire and pollution hazards as well as a collision threat to structures, pedestrians and vehicles. It is a poor use of police and fire company personnel to be obliged to identify and restrain errant fuel tanks during a storm emergency. The cost of cleaning up a sixty gallon petroleum spill is estimated, by one source, at \$10,000. Requiring that fuel tanks be anchored is considered a pre-mitigation strategy. Requiring that fuel tanks be anchored may help to improve the Island's FEMA rating and that might lower the cost of flood insurance. The flood plain management ordinance could be amended to provide for phase-in of the requirement to anchor fuel tanks. It was the consensus of Council to have Town Planner Anderson to continue developing his research and to implement an ordinance requiring all homes to have their fuel tanks and/or gas tanks secured.

10a. Development of a Ten-Parking-Space Lot Across From the High School.

The Recreation and Community Enhancement Committee suggested that a temporary parking lot be established on Town property located across the High School on Main Street. The Public Works Committee recommended that a horseshoe drive with one entrance and one exit onto Main Street be created on the existing grass with ten parking stops installed. The parking stops would be installed at a forty-five degree angle to the driveway and would face Main Street. This proposal is temporary while a permanent design for the Park is developed. Councilman Howard motioned, seconded by Vice Mayor Speidel, to approve ten temporary parking spaces while a permanent design for the Park is developed. The motion was unanimously approved.

11. Mayor and Council Announcements or Comments.

- Councilwoman Richardson announced that the Planning Commission will meet on May 22 at 7:00 pm.
- Councilman Howard announced that the Harbor Committee will meet on June 13. He also suggested that all committees move their meeting times to 7:00 pm so that citizens can attend the meetings.

10. Briefing on the Retrofitting of Anchors onto Fuel and Gas Tanks.

Jared Anderson, Town Planner, briefed the Council on the research he completed to provide background information for the Public Safety and Transportation Committee's discussion about anchoring fuel tanks. Many fuel tanks on the Island are not anchored to foundations or structure. These can break free during high winds or flooding. Floating or tumbling tanks are potential fire and pollution hazards as well as a collision threat to structures, pedestrians and vehicles. It is a poor use of police and fire company personnel to be obliged to identify and restrain errant fuel tanks during a storm emergency. The cost of cleaning up a sixty gallon petroleum spill is estimated, by one source, at \$10,000. Requiring that fuel tanks be anchored is considered a premitigation strategy. Requiring that fuel tanks be anchored may help to improve the Island's FEMA rating and that might

lower the cost of flood insurance. The flood plain management ordinance could be amended to provide for phase-in of the requirement to anchor fuel tanks. It was the consensus of Council to have the Town Planner to continue developing on his research to implement an ordinance requiring all homes to have their fuel tanks and/or gas tanks secured.

10a. Development of a Ten Parking Space Lot Across From The High school.

The Community Enhancement and Recreation Committee suggested that a temporary parking lot be established on Town property located across Main Street from the High School. Public works recommended that a horseshoe drive with one entrance and one exit on Main Street be created on the existing grass with ten parking stops installed. The parking stops would be installed at a forty-five degree angle to the drive way and would face Main Street. This proposal is temporary while a permanent design for the Park is developed. Councilman Howard motioned, seconded by Vice Mayor Speidel, to approve the temporary parking of ten parking stops, while a permanent design for the Park is developed. The motion was unanimously approved.

SUBJECT: Addition of part-time Laborer position for Parks and Recreation

The Budget and Personnel Committee met on May 15th, 2007, to discuss a part time Parks and Recreation staff position. Mr. Cosby explained this person would perform regular duties in Memorial Park and at the downtown rest room facility from Tuesday through Saturday. Also, Sundays there is no coverage and on Mondays other Public Works personnel work in these areas. This would expand our routine maintenance activities to seven days per week and to extend our areas of regular coverage to the Waterfront Park, boat ramps and other recreational areas that we currently maintain on an as needed basis. This will improve the quality of our service and increase the time that our Public Works staff can devote to other activities.

The position is funded in the proposed budget for 2007-2008 at a total of 24 hours per week, which can be adjusted according to our needs. For example, the hours can be increased in the summer and decreased in the winter. The total cost including benefits for this position is \$12,093.

The Budget and Personnel Committee agreed that we will need this position and has favorably endorsed the part time position to the full council for approval. If the full Council agrees a motion could read;

"Move to allow the Public Works Director to hire a part time laborer to work in the Parks and Recreational areas."

Subject: Re-adoption of State Motor Vehicle Code

Each year, Council is asked to consider the re-adoption of Title 46.2 and 18.2-266 et seq. of the Code of Virginia. This practice permits all changes and updates in the State Code relevant to the traffic and vehicle code to be enforced by our Police Department. Section 58-2 of the Town Code which enables this re-adoption is attached.

Council is respectfully requested to consider a motion to re-adopt Title 46.2, Title 18.2-266 and section 58-2 as amended

Sec. 58-2. Adoption of state law; former provisions.

- (a) Pursuant to the authority of Code of Virginia, § 46.2-1313, all of the provisions and requirements of the laws of the Commonwealth contained in Code of Virginia, title 46.2 and in Code of Virginia, § 18.2-266 et seq. in effect, July 1, 2007, except those provisions which are contained elsewhere in this chapter and except those provisions and requirements the violation of which constitute a felony and except those provisions and requirements which by their very nature can have no application to or within the town, are adopted and incorporated in this chapter by reference and made applicable within the town. References to "highways of the state" contained in such provisions and requirements adopted in this subsection shall be deemed to refer to the streets, highways and other public ways within the town. Except as otherwise provided, neither the repeal of section 58-2 nor the enactment of this re-adoption shall apply to offenses committed prior to the effective date of this section, and prosecution for such offense shall be governed by prior law, which is continued in effect for that purpose.

MEMORANDUM

To: Mayor and Town Council

From: Jared B. Anderson, Town Planner

Date: May 31, 2007

Subject: Proposed Changes in Zoning to Condos, Townhouses, and Multi Family

Dwellings in C-1, C-2, and R-3

This Memorandum is in reference to possible changes in the language of C-1, C-2, and R-3 zoning districts. Please review and if you have any questions please feel free to contact me (email: jared@chincoteague-va.gov, or 336-6519).

Staff has discussed at length possible amendments to the Zoning Ordinance that would effectively change what are considered uses permitted by right in the C-1, and C-2 Districts. Currently Condos, Townhouses, and Multi-Family Dwellings are uses permitted by right in the C-1 and C-2 Districts.

Staff would like to recommend that Condos, Townhomes, and Multi Family Dwellings in both the C-1 and C-2 Districts be allowed only as a conditional use and not as a use permitted by right.

Furthermore, staff also recommends that Condos, Townhomes, and Multi Family Dwellings in the R-3 District be allowed only as a conditional use and not as a specifically enumerated special exception.

Staff would like to defer to the January 2, 2007 Memorandum from Mr. Poulson to Mayor Tarr and Councilman Wolffe for the specific action to be taken regarding these proposed amendments with the following inclusion regarding the proposed changes to R-3.

Repeal Sec. 3.8.3. Townhouse.

Repeal Sec. 3.8.4. Condominiums.

Repeal Sec. 3.8.5. Multifamily dwelling.

SUBJECT:

Proposed Zoning Changes as to Condos, Townhouses and Multi Family

Dwellings in C-1 and C-2

Back in August of 2006 I had suggested some zoning changes which essentially provided that the special exception catch-all would be tightened so that the BZA could only grant a Special Use Permit if the use was permitted by right or expressly enumerated as a special exception in another residential district or commercial district. If as a result the use was not permitted by right or expressly enumerated as a special exception in the other same type of district, then the use could only be permitted by the council under the Conditional Use Permit procedure, i.e. Article IX.

I do not know where those provisions are and they may, at this time, be with the Planning Commission.

In any event in looking at this particular question I see that I did not have what I believe to be some amendments that were made to the Zoning Ordinance in 2004-2005. It would appear that if the version that I have now is correct, that we have already tightened up the so called "catch-all" so that uses in a district are permissible under only three (3) circumstances:

- 1. By right.
- 2. By specific enumerated special exception by the BZA.
- 3. Conditional use by the Town Council.

See, for example, Sec. 3.2.1, Sec. 3.5.2, Sec. 3.8.10, Sec. 3.11.6, Sec. 4.2.4, Sec. 4.5.4.

These changes came about as the result of the amusement facility on Maddox Boulevard.

We certainly need to give consideration whether we want to even pursue those proposed amendments in view of the actual existing language of the Zoning Ordinance.

At this time let me summarize the districts insofar as condos, townhouses and multifamily dwellings. I am not sure of the distinction or significance of the latter use and what it specifically is.

- 1. In R-1, townhouses, condos and multifamily uses are not permitted except by Conditional Use Permit by the Town Council under Sec. 3.2.1.
- 2. In R-2, townhouses, condos and multifamily dwellings are not permitted except by Conditional Use Permit by Town Council under Sec. 3.5.2.
- 3. In R-3, under 3.8.3, 3.8.4, and 3.8.5, townhouses, condominiums and multifamily dwellings are respectively permitted as special exceptions by the BZA.
- 4. Agricultural District A townhouses, condos and multifamilydwellings would only be permitted by Conditional Use Permit by the Town Council under Sec. 3.11.6.
- 5. Commercial District C-1 under Sec. 4.1.30, 4.1.31 and 4.1.34, townhouses, condos and multifamily dwellings are permitted as a matter of right. Note that Sec. 4.2.4 permits other temporary permanent uses of land in accordance with a Conditional Use Permit by the Town Council.
- 6. Commercial District C-2 again under Sec. 4.4.42, 4.4.43 and 4.4.46, townhouses, condos and multifamily dwellings are permitted as a matter of right. This Section does contain by 4.5.4 provision for other uses as may be permitted by the Town Council pursuant to a Conditional Use Permit.

Accordingly, if you desire to remove townhouses, condos and multifamily dwellings as a matter of right in C-1 and C-2 and subject them to the Conditional Use Permit provisions it would appear that all you have to do is repeal the appropriate sections of right as a Conditional Use Permit procedure is already in place. Accordingly a motion should follow the following format:

That, giving consideration to the public necessity, convenience, general welfare, and good zoning practices, that the following proposed amendments to the Town of Chincoteague's Zoning Ordinance be referred to the Town Planning Commission pursuant to Section 15.2-2285 for the recommendations, such recommendations to be made only after Notice and Public Hearing in accordance with Section 15.2-2204.

The Planning Commission shall report its recommendations with any explanatory materials within ninety (90) days of its first meeting to consider the proposed amendments.

Repeal Sec. 4.1.30. Townhouse
Repeal Sec. 4.1.31. Condominiums
Repeal Sec. 4.1.34. Multifamily dwelling
Repeal Sec. 4.4.42. Townhouse
Repeal Sec. 4.4.43. Condominiums
Repeal Sec. 4.4.46. Multifamily dwelling

All such Sections shall be "Reserved".

No such repeal shall affect any existing zoning and/or subdivision approval and/or any pending application for any such approval.

Any such repeal shall be effective upon adoption by the Town Council and approval by the Mayor.
